

Rother Ramblers' On-line Photographic Competition

More members are carrying their digital cameras on walks these days and generally speaking the membership as a whole never gets to see these photos, and so it has been suggested that we organise a light hearted, year round competition.

How it works

The competition is loosely set around the seasons, arranged so that we complete a 12 month cycle just prior to the AGM.

Winter – November to January; Spring – February to April

Summer – May to July; Autumn – August to October

Members may submit one image per event which has been taken on, or at, Rother Ramblers walks or events, either via e-mail, on CD or USB memory stick to the Webmaster, Lionel Pringle. Images should be accompanied by details of which walk or event they were taken at. ***Please submit the images full size, just as they come off your camera, do not decrease the size.***

At the end of the final month of each season the on-line membership will be asked to pass judgment, and select their three favourite images from the past seasons offerings, a detailed outline of how to do this will always be found at the head of the new competition page on the website. By the time of the AGM there should be a selection of twelve, which will be printed, and an overall winner will be selected by those members present at the AGM.

Everything relating to this competition can be found by clicking on the 'Competition' button on the website. ***Please make the effort to join in.***
